ODOO DEVELOPER

Flib Virtual Company | Kampong Speu, Cambodia
May 24, 2021 - Present
Junior Level | Internship

School Management System for KIT

About Project: School Management System is the system using Odoo Framework version 13.0 for managing and accessing School Resources. It has been implemented for KIT faculty and student in order to make them easier to manage and access all the data in only one single system as well as reduce their workload and improve the user experiences. Since we use Odoo Framework so it has all the structures and many features in the package itself but some features it does not useful for KIT. Therefore, we have to work on customization and sometimes develop new feature to make sure it meets the requirements of KIT and Ministry of Education in Cambodia.

Technical Skill: XML, HTML, CSS, Sass, JavaScript, JQuery, Python, PostgreSQL, Odoo Operation, UiPath, Git, GitLab

Soft Skill: Team Work, Communication, Responsibility, Time Management, Problem Solving, Empathy
